WINE PRESENTATION

Blind wine tasting through an interactive poker game

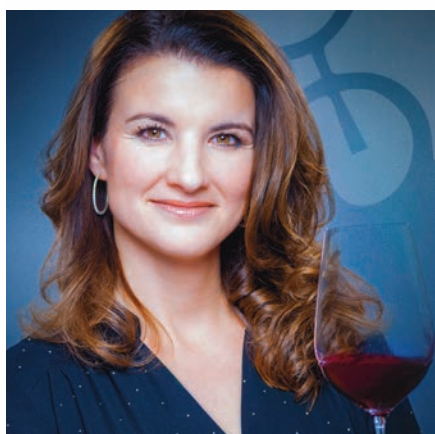

Invigorate your fundraising activity!

Thanks to a unique and entertaining game concept of blind wine tasting through poker, give your guests the opportunity to explore different wines while learning more about this fascinating world and having fun. Learn the tips and tricks of sommeliers, taste some great wine, test your knowledge and have a wonderful experience!

Learn sommeliers' tips and tricks

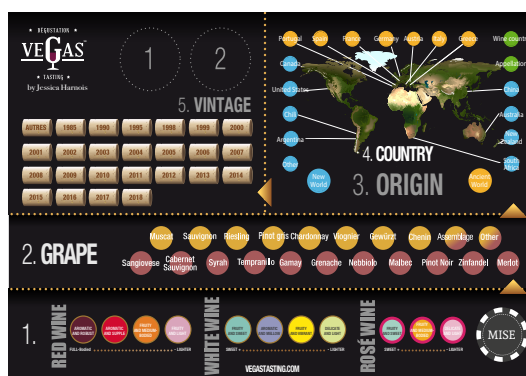

Under the inspirational guidance of the evening's sommelier, learn to identify wine characteristics: visual, olfactory, and taste.

Created by the renowned sommelier and host, Jessica Harnois. She was a prestigious wine purchaser and storage cellar manager for the SAQ (exclusive collection of 75 000 wine bottles). She now chairs Vins au Féminin and has also created the popular range of BU wines available throughout Quebec.

How the game is played

Tasting of 3 wines over a 20-minute period for each wine.

GAME MAT

Like the poker game, up to 8 people are gathered around each table. Test your knowledge on the "Vegas Tasting" game mat by betting your chips on the taste tag, grape variety, origin (Old or New World), provenance (country), and vintage (year) of a wine you are tasting. If you are feeling confident in your answers, risk it all in Step 5!

For an event that best represents you, why not ask one of your volunteers to be dealer?
